

623 Coolum to Nambour trial bus service

Now you can catch a direct bus, between Coolum and Nambour, every day of the week on the brand new 623!

TransLink and Sunshine Coast Council have recently begun a trial bus service between Coolum and Nambour. With two morning and two afternoon services in both directions, you can easily connect between Coolum, Nambour station, Nambour town centre, Nambour Hospital, Sunshine Coast Airport, Coolum Waters Retirement Village and many other stops in between, with no need to change buses.

The 623 Coolum to Nambour will operate as a trial until 30 June 2012, creating 56 new services each week for the region.

This project is a joint initiative brought to you by TransLink and Sunshine Coast Council and is fully **funded by your Public Transport Levy**.

Passengers will be able to connect to train services at Nambour station, meaning an easier trip to Brisbane. The bus also stops in front of the Coolum Waters Retirement Village giving residents direct access to the route.

You are able to use your go card on route 623 (as it is a TransLink service) or, if you prefer, you can also purchase a single paper ticket.

The timetable and more information are available from translink.com.au or by calling 13 12 30 anytime.
