

Transit Australia Group

PASSENGER NOTICE

Sunshine Coast Sunbus is Back in Business Wednesday 28 September, 2011

Today Sunbus drivers endorsed in principle the remuneration package of a new three year Enterprise Agreement with parent company Transit Australia Group.

Sunbus passengers can now look forward to the return of a reliable bus service, with all parties looking forward to delivering a quality public transport to the Sunshine Coast community.

Both TAG and the Transport Workers Union have agreed not to disclose details of the offer. There are still some significant administrative processes to follow, and we anticipate at this stage that the new Enterprise Agreement will be formally ratified in the near future.

“ I would like to personally thank our passengers for their patience and welcome our employees to join me in making a fresh start and creating a new era in public transport on the Coast,” Sunbus Manager, Mr Morrissey said.
